

SUSTAINABILITY POLICY

Orient Paper Mills, Amlai , prop: Orient Paper and Industries Ltd. is engaged in the production of Pulp, Paper & Paper boards and Caustic Soda and its derivatives.

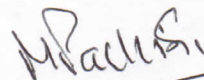

The Company is committed to demonstrate continuous reduction and conservation of resources while ensuring production of quality products.

Our sustainability policy is based on three pillars of People-Planet-Profit in synergy with our efforts to Enhance – Enrich – Encourage.

To achieve this, we shall be committed to:

- ❖ Ensure sustainable supply chain of fibre or any other natural resources. We shall engage in promoting resource efficiency programmes with a philosophy of continual improvement plan for reduction of Water, Coal, Lime and Fibre consumption and lead OPM towards improving its environmental footprint and bottom line.
- ❖ Continuously engage with farmers under our Farm forestry programme to encourage and motivate them to undertake planting of high yielding clonal saplings on their farm land so as to help in greening the environment and enhancing the farmers' well-being while ensuring long term wood/fibre availability for the company.
- ❖ Taking care of our employees and the community who are directly or indirectly dependent on the company.
- ❖ Delivering quality products to the customers and focus to increase & retain our customer base.
- ❖ Ensuring adherence and compliance with applicable regulations, standards and norms.
